ARNOLD'S COMBINED

FOOT STOVE, LANTERN,

....AND....

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, besides giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

ASSIGNEES' SALE

—OF—

Valuable Real Estate

—AT—

ZILWAUKIE, SAGINAW CO., MICH.

THE following described property will be disposed of at Public Auction, at the *Merchants' Exchange, in the City of New York*, on THURSDAY, the 28th of February, 1856, at noon, unless previously disposed of at private sale, by order of the Assignees:

First—One large Steam Saw Mill known as the Gang or Mammoth Mill, about 50 by 125, including a gang of 21 saws; 2 multi saws, with rolling and edging machines, engine room about 30 by 75 feet. The whole driven by the most powerful engine on the river.

Second—The Mill known as the Shepherd Mill, of about 42 by 60 feet, consisting of two multi saws and edging machines, this mill is said to be equal to any mill of its size on Saginaw river. Both of the above mills are in good repair, with large and commodious Wharfs, Lumber Cars, Railways, Booms, in fact all the necessary appointments of first class mills. The above mills were in operation for about three or four months the last season, and gave the utmost satisfaction in regard to the quantity and quality of lumber cut.

Third—About 400 Village Lots in the village of Zilwaukie, in which there is a large Hotel 40 by 60 feet, two stories high, a new Store 40 by 60 feet, Office and Boarding House, and a number of other Dwellings to accommodate the families of those employed in the mills, and the general business wants of the place.

Zilwaukie is situated on the left bank of the Saginaw, 14 miles from its mouth, and five miles below the county seat of Saginaw County, with which it is connected by a good road. The location is considered healthy, less sickness has prevailed in that than in any other village on the river, according to the population, since its settlement; it is at the head of navigation for loaded vessels bound from or to the Lakes, and is considered one of the best points for manufacturing Lumber on the river.

Also, about 500 acres of good Farming Land on Cass River, in Tuscola Co.

Boston Lying-in Hospital,

THE Trustees of this Hospital desire to call the attention of the Medical Faculty, and of the New England public, to the advantages which the new Hospital affords for the comfort of patients and the treatment of those cases which it was the intention of its founders to relieve.

Admission regulations are upon the same principles as those of the Massachusetts General Hospital; the charges depend upon the accommodations, and are as low as the means of the Corporation will admit. In the construction of the Hospital great attention has been paid to the comfort of the patients, in ventilation, heating apparatus, bathing-rooms, water-closets, etc. The capacity of the building being in advance of the wants of the public for lying-in patients, the trustees have decided to allow a portion of the Hospital to be used for the accommodation and treatment of diseases of the female sex," and applications may be made personally, or by letter addressed, to Mrs. C. Position of the Connecticut Whigs—some Thoughts for the Straitouts of Maine.

A Whig State Convention was held at New Haven on the 13th inst. Among the resolutions passed is the following

Resolved, That we recommend to the Whigs of Connecticut to unite with those opposed to the general Administration in the nomination and support of candidates for Representatives and Senators in the several towns and Senatorial Districts in order to render the defeat of the Kansas Nebraska party *sure*, and to secure the election to the United States Senate of one who will truly represent the feelings and interests of the people of this State

We commend the above action of the Connecticut Whigs to the serious consideration of those who have hitherto gone with the "Strait Whig" leaders of Maine. The union proposed in Connecticut is diametrically opposite to the action taken here last year, for while the Connecticut Whigs, with a sensible and practical devotion to their professed principles on the only vital political question of the day, announce their determination to *unite with* the anti Nebraska Republican party in the election of State Senators and Representatives, in order to defeat the Nebraska men, and secure a United States Senator who will truly represent the people on the question, the Straitout leaders of Maine have thrown their whole influence *against* the Republicans, and in aid of the Nebraska democracy. In Maine, as in Connecticut, there is a United States Senator to be chosen by the next Legislature. Will the candid, honest, and disinterested voters among our Straitout Whigs give any aid towards filling that place with a defender of, or an apologist for the Nebraska iniquity? If they continue with the present "alliance," their action must tend towards sending a man to the United States Senate who will at least *acquiesce* in the wrong which has been committed in that matter, and who will also substantially acquiesce in the border ruffianism which has since overrun and made laws for Kansas. *Last year* the alliance of Strait Whigs with hunker democrats who attempted to be excused by saying that no "national questions" were at issue, when there was no United States Senator, and no Representatives to be chosen. THIS YEAR THERE ARE BOTH, and the excuse before given by the leaders, that there were only State issues in question, cannot now be offered. The selfish politicians who are after the offices, will, however, give plenty of other reasons for attempting again to drag the honest Whigs after them into the locofoco camp. But we ask every reflecting disinterested man to stop and consider before he again gives his vote and his influence in direct opposition to his principles, under the delusive idea that he is maintaining the integrity of the *Whig* party, for he is in fact doing no such thing by action of this kind. He is merely bolstering up and maintaining the old hunker locofoco party, which has always derived its greatest strength from an alliance with the 350,000 men who own the four millions of slaves at the South, and control the six millions of poor whites in the same section. Will the Strait Whigs of Maine again aid in giving such a party the ascendancy in Maine—and thereby help to elect a President of the same party?—If they do, they will not only act in opposition to their own principles, but they will not more effectually against any substantial revival of the *Whig* party than if they voted *for* their principles, in alliance with the Republican party—Any reflecting man must see that an alliance of Whigs with the self styled democratic party, at a sacrifice of their principles, must operate to destroy every prospect of an honorable resuscitation of the Whig party in strength enough to make any respectable show; for when a party sacrifices its principles in a coalition, it is, and ought to be, undone forever. Now the Republican party maintains the *same* principles upon the present political questions with those professed by the Strait Whigs, and by allying themselves with the Republicans, they would sacrifice nothing but a mere *name* which has itself been substituted within twenty years for the very same party name of "Republicans" which we now adopt.

The Whigs, both of Connecticut and of New Hampshire, are now substantially in alliance with the Republicans as *against* the sham democracy. Will the remaining Strait Whigs of Maine vote *with* and *for* the sham democracy, in an election where an entire Congressional delegation is to be chosen, and upon the result of which the character of our next United States Senatorie is depend? Or will they throw their votes on the side of their principles, and thus take the only course whereby their ancient opponents the pretended and false democracy of this country can by any possibility be defeated, and the true constitutional principles of our confederacy made triumphant over southern sectionalism and disunion?

The Bangor Journal will doubtless have its fling about "Black Republicans begging votes," or comment upon our suggestions in some other characteristic terms, but we believe the great body of the Strait Whigs are honest, sincere and unselfish men, and capable of judging for themselves as to what political course will be most consistent with their principles. We have therefore simply called their attention to the course adopted by their brethren in other States, and left them to reflect candidly upon it, without reference to the wishes or interests of the leaders who take the offices.

AN ENTIRE SWINE.—We saw a noble porker yesterday, raised by S. D. Brown, Esq., of Milford, which was killed at twenty months old, and weighed, when dressed 740 pounds. It was purchased by Mr William Low at his Market House on Hendukeag Bridge.

The New York Post gravely states that upon the table of the Peace Conference at Paris, there are still kidnapping, one for every two Ambassadors. This is important, if true.

The town elections in Maine show a series of triumphs for the state administration, and indicate a growing feeling, in favor of the principle of the Kansas Nebraska bill.—*Boston Post.*

The Post gets off some whoppers with an innocent air.

The town elections of Maine are about two to one *against* the administration, and so to the principle of the Nebraska-Kansas bill, the Post wouldn't be able to claim the first triumph in its favor, were it not for the aid of our Straitouts who are all the time proclaiming themselves anti-Nebraska men.

ANOTHER "PECULIAR INSTITUTION" ASKING ADMISSION.—Late advices from Utah state that on the 17th of December, an act was passed by the Legislative Assembly, and was approved by Brigham Young, (who, by some means or other, continues to hold the post of Governor still,) providing for the holding of an election on the 15th of February, to obtain an expression of the popular will upon the question of holding a convention for the formation of a State constitution, and asking admission into the Union. According to the doctrine of "national" hunker politicians, Utah *must* be admitted, polygamy and all, if she asks admission, with a sufficient population. As to the latter requisite, we should imagine there could be no deficiency, when the saints have, for some years past, ten or twenty wives apiece.

LOSS OF ANOTHER BOSTON SHIP.—Accounts received by the steamer Petrel, report the loss of the ship Cape Cod, Capt Crosby, from Calcutta for Boston. She was abandoned at sea December 4, in lat 15 S, lon 76 E. Crew saved. The Cape Cod was a fine ship of 775 tons register, built at South Boston in 1852, and was owned by Messrs. Thacher & Sears.—The insurance offices in State street, will lose about $200 000 by this disaster.

RECONSIDERING OF THE POLICE COURT.—We understand that Dr. Jordan, of this city, was nominated by the Governor on Friday, as Recorder of the Police Court, an office which has been created since the bill was passed. The salary of the Judge is $600, and of the Recorder $400—the latter having a chance at some perquisites in addition.

Mr Robertson of the Journal was an applicant for this office, but Gov Wells declared that nobody but an open "Democrat" should have it. The Straights had already got more than their share

It is said that the business of fitting out slaves is carried on extensively in New York. The Commercial Advertiser believes the practice to be "alarmingly and disgracefully prevalent," and the Tribune states, on good authority, that thirty vessels are annually fitted out there for the purpose of procuring slaves upon the West Coast of Africa.

It is stated that American printed russian dollainas are coming into the market in great variety this season. The styles are far more beautiful than ever before produced in this country. Very few of those goods are now imported, as the trade, very generally, prefer domestic manufacture

THE OLD DOMINION; OR THE SOUTHAMPTON MASSACRE. A Novel, by G P R James, Esq. New York: Harper & Brothers 1856

There are few novelists who have written more than Mr. James, and there are few whose novels contain, in fact, more of interesting and often thrilling incident. The present work, as its title indicates, has the tragedy of its incidents in the State of Virginia, and is based upon the memorable insurrection of the slaves in 1832,—a subject certainly ample enough for materials of tragic interest. The edition which we have received, through Messrs Fetridge & Co, is in paper binding, and comes at the low price of 50 cents,—complete in one volume.

THE CRATER. A Tale. By J. Fenimore Cooper. Complete in one volume. New York: Stringer & Townsend: 1856.

Two more volumes of the People's Edition of Cooper's Works, now nearly completed, by Messrs. Stringer & Townsend, in a handsome, uniform style, and at a very low price.

"The Two Admirals" constitute one of Cooper's very best sea stories—the incidents being connected with the English naval operations prior to the French war of 1756.

"The Crater" is a story of absorbing interest—having a strong Robinson Crusoe cast about it. The hero gets carried away upon a bleak rock in the Pacific, a thousand miles from any land,—he ship and one companion being saved, but the ship in such a position that she cannot be extricated from the reefs by which the island is surrounded. The island itself is discovered to be the top of a submarine volcano, whose fires are extinct, and the crater of the volcano becomes the home of the mariners, for a long time, and the centre of the subsequent colony.

The Proposed Removal of Judge Davis.

The sober people of Maine have been suddenly startled and shocked, by the avowed determination of the majority of the present Legislature, to remove one of the Judges of our highest Court, by the summary process of "address." It seems that the matter has already been settled in caucus, and that the solemn mockery of a formal hearing and of a still more formal vote only remains to be performed, before the fact is finally and fully accomplished It is not imagined that any discussion or argument, any facts or reasoning, any appeal to the judgment, or any exposition of the inevitable effects which must follow, can avert the stroke, or stay the hands which have, in secret conclave, resolved upon the sacrifice, and in the fest of party zeal, have pledged unyielding persistence in the execution of the Star Chamber decree. But there is a tribunal, which is outside of either caucus or Legislature, before which this question must come for final decision, and that tribunal is the clear, calm, honest and intelligent minds of the people of Maine in their quiet homes, examining the whole question in all its bearings.

It is no time for idle words or loud harangues or intemperate personal denunciations. The questions involved are serious and solemn, reaching, in their consequences, far beyond any personal results, and affecting directly the vital principles of the Constitution and the only safeguards of the people's rights. They touch and they involve the great question of the *independence of the Judiciary*. The blow aimed and about to fall, will fall fatally on that sheet-anchor of our government and last refuge of the citizen. It is probably too late to ask the heated partisans at Augusta to pause and consider, but it is never too late to appeal to the people—that tribunal which can never be corrupted or long misled by passion or prejudice

It is one of the most striking facts in the history of the Saxon race, that they have always held, just the great doctrine, that the laws should be administered by Judges of integrity, and that to secure these judges the freest and fullest exercise of their unbiassed and impartial judgment, they should be independent of other departments, and hold their offices by a tenure which should never depend on the will of any man, or body—whether a single King or Governor, or a Legislature.

The proudest boast of the Saxon race is, that in the midst of all political changes—in the overthrow of Empires—the dethroning of Kings, and the installing and destruction of Republics—when the utmost violence of political rage, and the bitterest strife of contending parties have seemed to threaten the uptorning of the whole fabric of government, in the darkest days of tyranny and in the saddest hours of despondency—the people have clung to this cherished faith, in the independence of the Judiciary, as their first and last hope—the star that never set, and the rock against which the winds and waves of tyranny and passion might beat in vain. Private rights and public liberty alike rest for security on this independence. All else may fluctuate and change, forms of government may be vitally modified, men may come in and go out, legislation may be unwise and injurious, proscription may unseat incumbents in all other departments, and party then rule supreme, but if once this citadel of freedom and right—this Gibralter of the Constitution—is captured and surrendered to party rage, and prostituted to party purposes, the fatal hour has struck from which it to be dated, the destruction of a free government.

All history confirms this view. The most honorable and glorious pages of English history are those that record the bold and fearless independence of Judges appointed by the crown, who in repeated instances have given decisions adverse to the crown, when the whole power, influence, and threatenings of the Court and Executive were brought to bear upon the honest and independent Judge. *No King of England would dare to remove a Judge because he had made a decision adverse to his wishes, interests or plans.* All England would rise and overthrow any ministry which should so advise. The Saxon blood, in its blunt honesty, and bold love of impartial right, and hatred of tyranny, would boil to fever heat, should such an attempt be made. It would sooner see the whole government overthrown than yield a point on this matter of an independent Judiciary. But what have we witnessed?—What are we now witnessing? A proposal to remove a Judge—not by trial and judgment on an impeachment, but by the combined action of the Legislature and Governor, by the summary process of an address. And on what charge? Not that he is incompetent or dishonest—not that he is incapable, by mental or bodily infirmity, of discharging his duties—not that he has been guilty of any infamous crime—not that he has been oppressive—not that he has acted from corruption, or passion, or prejudice, or in a wanton disregard of law,—nay, not even that he has not decided the question before him conscientiously and according to his best judgment and real convictions—but that he has decided contrary to the opinions, wishes and purposes of the dominant party. Stripped of verbiage, of the cover of words under which the charge is made, it comes to this.

It is certainly an alarming fact, and one that should make every public and political man pause and examine, that he may guard himself against the excess of party zeal and party passion—that Mr. Bradbury of the Senate, should lend himself so readily and eagerly to such a work. One would hardly expect such a demonstration from a man who has, in former years, been regarded as a conservative and fair-minded man, and whose education, course of life, and professions have all been on the side of Judicial independence and the firm support of this great doctrine. It is but another bad evidence of the lengths to which men may be carried by mixed motives, operating on their minds; and by a desire to exhibit zeal and devotion to the ultra doctrines of jacobinical radicalism—lest their position in their new relations to man and parties might be suspected. The very unsatisfactory result of this gentleman's effort to sustain his theory in the Senate, and another bad precedent on his bill, in relation to the aid of Kansas, [illegible]

EFFECT OF THE TRAGIC CALAMITY IN CAMDEN. Never within the memory of man has an event occurred which so completely overwhelmed our sister city of Camden with distress and mourning, as the terrible catastrophe of the destruction of the steam ferry boat "New Jersey," on Saturday night. Not a family resides there that has not lost a friend or acquaintance, and that is not, therefore, called upon to visit and condole with, alas! too many households where the father of the flock, the husband, the brother or the son has not been suddenly swept from time into eternity. Truly, the Destroying Angel passed over the community armed with a flaming sword, and prepared also to destroy human life by submergence beneath the deep waters of the Delaware. No sooner was the fire seen from the Jersey shore, then vast crowds of citizens and their families assembled at the wharves, and intense anxiety, alarm, and excitement prevailed, while the atmosphere was laden with the bale-fires of death, and vocal with the shrieks of the dying—perishing, too, beyond the reach of rescuing friends. Women were seen wringing their hands, children calling for their fathers and mothers, and parents bewailing the supposed loss of their children. In the brief space of a few minutes, more than fifty of our fellow beings perished by fire or water. They met their sad fate within a few rods of crowded wharves and a populous city—and of those who are now numbered with the dead, there is every reason to believe that at least thirty were residents of Camden. In every street, houses were open during the entire night, thronged with expectant and eager relatives and friends—the doors open, as if awaiting the joyful arrival of the head of the household, but alas! the long night wore away, and the morning dawned upon groups of mourners, plunged in the deepest grief. Their father, their beloved father, would never darken those familiar doors again, would never more gladden the hearts of his wife and children, his place knew him no more, and he was lost to wife, children and friends forever. In a few instances only, rescued men arrived at their homes by the latest night boat, and their sudden appearance when supposed to have been drowned, excited emotions of heartfelt joy and gratitude to Providence which no language can portray. Sunday was truly sorrowful in Camden. In every church one or more vacant seats or pews were to be seen. The families of the bereaved were remembered in their unspeakable grief, and the consoling prayer "for those in affliction" was offered up, and we believe the tragic calamity was appropriately alluded to in every temple of every creed and persuasion.—*Philadelphia Inquirer*

The Great Triumph.

Editorial Correspondence of The N Y Tribune.

WASHINGTON, Wednesday, March 19, '56.

Our friends elsewhere can hardly realize how great is the triumph won for Free Kansas today. It is the fruit of two weeks' earnest, able and searching discussion.

Mr. Hickman, of Pennsylvania, closed the debate in a speech of commanding power, full of spirit, light and liberty. In clearness of statement and felicity of language, it has not been surpassed this session. The House proceeded to vote under the previous question, and finally passed the substituted proposition by one hundred and one to ninety-two.

Mr Hickman in his speech, and Israel Washburn afterward, had asked the friends of Kansas, to sustain Mr Dunn's proposition, and themselves and all their associates in the majority of the Election Committee voted accordingly, while those who would enslave Kansas voted the other way.

MAMMOTH, LIVE IN MEXICO. The San Antonio Zeitug of the 9th ult., contains a communication from Mr. Weidner to the Governor of the Mexican States of Nuevo Leon and Coahuila, giving an account of the discovery by him on the 16th of December, at the river Durazno, not far from the City of Parras of an extraordinary fossil tusk. It is eighteen feet long, and three feet in circumference at the root. The curvature of the tooth indicates a radius of nine feet at the larger end and two feet at the point. The ivory is much weather-worn, only the mineral portions remain. The exterior of the tooth is clear yellow, while the interior is white. The formation in which this tusk, together with molar teeth and the bones of various other animals, was found, is cretaceous and consists of deposites of sand, broken, fresh water muscles, iron ore, peat and petrified wood, in alternate layers, and scattered about very promiscuously. At the foot of the mountain is an ancient beach, indicating that the valley was a lake, and that the enormous animal who sported a ton of tusks trowled in its shadows on the vast cryptogamia which formed the peat-beds. Mr. Weidner supposes the animal to whom the tusk belonged, to have been something like an elephant, and estimates that he must have been 120 feet long—larger than any fossil animal heretofore known. He proposes the name of Durazzotherium-bebadilense.

The simplicity and beauty of this name are worthy of especial note. The paragraph itself is from The Tribune

BLOODY FIGHT BETWEEN A MAN AND HIS WIFE—MELANCHOLY SCENE.—Early on Monday morning while John Handley was busy at work in his shop, he received a visit from his wife. During her stay she took from his pocket a sum of money which John seeing requested her to hand it back. She was intoxicated at the time and when asked to return the money she handed him 20 cents. He then demanded the remainder when she became excited and grasping an ax she threatened to sever his head from his body. Handley fearing that she would commit a breach of the peace chased her home when a melancholy scene ensued—She grasped a razor and with it she inflicted upon her husband several fearful wounds. Policeman Gorman came to the rescue of Handley, when, he by force got his wife to the door, she then made a splurge and again made a fearful lunge at her husband. She was finally secured and taken to the Police office. The case presented a horrible spectacle. Her face was covered and her garments saturated with blood, and her eyes blackened. He had a severe wound on the right arm and was otherwise mangled. She swore she would take his life and nearly succeeded in accomplishing her threat. Mrs Handley was committed to jail and her husband discharged.—*Albany Journal.*

It is considered certain, that if General Walker can hold out six weeks longer, his government will be durably established. During this (for him) critical period, it is probable he will be compelled to meet the united forces of the four other Central American States leagued against him. This, then is the present crisis of the Walker Revue dynasty, of nascent filibusterism, not soon possibly for the Renders' club to be slipped in the bud. Every person who now enters Grenada, unless he comes with a special permit, is pressed into the Government service. The renowned general-issimo Walker has his hands full, and with his fourteen hundred Yankees against five thousand Central noodle scripts, must soon fight a mighty battle or run, diplomacy not being in vogue in that section.—*New Bedford Mercury.*

The steamship Arabia, left Boston on Feb 13th for Liverpool, reached Halifax at midnight of the 14th. On reaching the Banks, they took the wind from the S E, with thick fog, and ran in this state of the weather at the rate of *fourteen miles an hour*, and were only saved by accident from driving into an iceberg as big as the City Hall. So says a passenger who describes the trip

THE VITRIOL THROWERS AGAIN. Mr. Sherman, residing at the Astor Place Hotel, New York, after returning with two ladies from Mechanics' Hall, Tuesday night, discovered that the vitriol throwers had been at work in earnest, their clothes were nearly ruined by the destructive liquid. Mr Ward, residing in Fourth street, while returning last night from the Academy of Music, with his wife and another lady, were similarly assaulted. Both outrages were committed between ten and eleven o clock.

THE PACIFIC. The Pirate brings no tidings of the ill fated steamer Pacific, now under 6 days from Liverpool. Every day that she remains unheard from increases the doubt regarding her safety.

We have heard it stated that Capt. Eldridge knew of the existence of bets to the amount of $20 000 in regard to the comparative speed of the Pacific and the Persia, and this may have occasioned him to urge her with all the force possible, regardless of safety.

The Republicans at Washington claim an important triumph in the passage of Mr. Dunn's resolution, authorizing the Speaker to appoint a Committee of three members to proceed to Kansas and investigate affairs generally in that territory, present and past. Some of the Republicans say that the adoption of the proposition is a success equal to their election of Speaker.

The Fredonia, N Y, Advertiser says—We are sorry to hear that the extreme cold weather the past two months has cut off all hope of the peach crop this year. From an intelligent and experienced pomologist, who has made examinations in peach orchards in this vicinity, we learn that the buds are almost entirely destroyed. The exceptions are very rare

A HARD WINTER. The snow-drifts are not confined to the railways. The Syracuse Journal says that the plank roads in that section are in a bad fix, and adds that in one place the drifts are so high that the gate-keeper comes up through the scuttle in the roof of his house, and receives the toll by reaching up through a hole in the middle of the roof

Copy of a Letter received by Mr Carrau, our agent at Calcutta

CALCUTTA, June 3, 1852

MY DEAR JULIEN—I desire for the information of Perry Davis & Son, to state a few instances of good resulting from the use of the medicine manufactured by them, called Pain Killer. The first case that I shall mention in which I performed a cure was that of Spleen of a year's standing. The person afflicted with the disease was a young native. Together with the Spleen he used to get a fever. Before trying the Pain Killer however I adopted another remedy, but that failing, I resorted to the Pain Killer, and I am happy to say, that the Spleen left and the fever were removed in a very short time. A servant boy who had his right hand severely scalded by the falling of boiling oil on it, was in a few days perfectly cured by the application of a mixture of Cream and Pain Killer, as directed in such cases. Then my child, a girl three years old, wanglered of an obstinate Cough. Lastly, I shall refer to myself—I took the medicine under circumstances which it would be unnecessary here to state—but it was not from any confidence I had in it, on the contrary I took it with a great deal of fear. However, I must own that it several times relieved me of cold in the chest, and it cured me of a Fever, of a pain in the left knee and an ulcer in the mouth. In addition to the above I may mention a case of cholera cured by this medicine, which was brought to my notice by a friend. The coachman of my friend's brother in law was attacked with the disease, and medicines kept by my friend's family for that complaint were given to the man without any effect, and, as the last resort, when he was cold and speechless the Pain Killer was administered, which threw a warmth into the system and revived his sinking energy—in short the man was restored. Yours, sincerely, B. W. CHILL.

WISTAR'S BALSAM OF WILD CHERRY

From the N Y. Evening Mirror, May 25

"Among the Panaceas advertised for the cure of human ailments there is none in which we have more confidence than WISTAR'S BALSAM OF WILD CHERRY. We regard it as one of Nature's own preparations—simple safe, pleasant to take, and almost certain to cure all lung and pulmonary affections. We have witnessed its wonderful effects in cases that were regarded as hopelessly desperate, and we can conscientiously recommend it as one of the best medicines in the world."

It has proved more effectual as a remedy for Coughs, Colds, Influenza, Bronchitis, Asthma, and Consumption in its incipient stages, than any other medicine.

Sold by Dealers in Medicine generally. Price $1 per bottle. SETH S. HANCOCK, Sole Proprietor, No 138 Fulton street, New York.

Sold by all Druggists and Dealers in Medicine everywhere.

Holloway's Ointment and Pills in incredible numbers have Edward Jackson of Cherokee, Texas suffered untoundly for four years with a Rheum. So bad was he that for four whole months he was confined to his bed. He tried every remedy, but kept from bad to worse. He now never ceases to praise these wonderful medicines. Let no one despair who has this disease, for this is the cure for it. Holloway's Ointment and Pills. These four remedies gain a victory each an improvement. No matter how long standing the disease has occasioned, and by continuing the treatment for a time, he was restored to the blessings of health which he has enjoyed ever since.

Burning of a Steam Tug.

New York, March 21.—The Lenapian, the finest, best and swiftest steam tug that ever plied in these waters, was totally destroyed by fire yesterday, about twelve miles of Sandy Hook, and within four miles of the Light Boat. The captain and crew escaped in the life boat.

Washington, March 20.—Mr. Seward's proposed substitute for Douglas's bill, admits Kansas immediately into the Union as a State. He will present it on the attention of the Senate at an early day.

The Relief of the Arctic.—The propeller Arctic brought despatches to the government and Mr. Elk. Collins, respecting the result of her search for the Pacific. She has been cruising between Sable Island, which was thoroughly examined for recent wrecks, and the latitude of 40°, along the edge of the Gulf, and has not seen any vessel of the Pacific or of any other wreck. Capt. Hartstein proposes to remain off and until the 1st of April, as he has on at for 12 days voyage, and plenty of provisions on board. The Arctic will sail in the Gulf Stream until she returns to this port.

The Pacific.—We understand that the proprietors of the Collins line now entertain very little hope of the safety of the Pacific. The return of the Arctic, and the repeated arrivals of foreign steamers without any tidings from her, are discouraging circumstances.—*N. Y. Journal of Commerce.*

More Changes in the Courts.—On Thursday a bill was introduced into the Senate for the establishment of a Court of Common Pleas, and for further regulating the powers of the Supreme Court.

It is thought the Legislature may adjourn by the middle of next month. Last year the session closed the 17th of March.

Counterfeit Bills.—The New York papers say there is no time within the past six or eight years that there has been so much counterfeit money circulating in that city as at present.

Cheap & Convenient Building.
Door, Sash and Blind Factory.
A. DUNBAR
HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen, in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.
This business is now become so well systemized that only a small margin is left for knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.
Any one interested can examine specimens of the work at the factory, near the Rose Place, or at the store of A. S. Jackson, on Exchange st., and at either place any article may be obtained on large or small quantities, at selected.
He is prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.
By long experience, and by determined perseverance, he is now enabled to suit his customers, both in quality and price, and so well organized is the business that no man should now think of building, or repairing, by the old and slow and imperfect methods.

A MARVELLOUS REMEDY.
For a Marvellous Age!!

HOLLOWAY'S OINTMENT!!
The Grand External Remedy.

By the aid of a microscope we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes through a bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Head, Scrofula, or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, despatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds, ulcers, sores, wounds, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistulas.

Those and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles	Sciatica
Burns,	Rheumatism	Scalds
Chapped Hands	Salt Rheum	Swelled Glands
Chilblains	Skin Diseases	Stiff joints
Fistulas	Sore Legs	Ulcers
Gout	Sore Breasts	Venereal Sores
Lumbago	Sore Head	Wounds of all kinds.
Mercurial Eruptions	Sore Throats	

*.*Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cts, 624 cents, and $1 each.

☞ There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

Hope springs Exulting from its Use, while Doubts, fleeing away, give place to Conviction most Triumphant.

BE kind enough, Reader, to give your attention one moment, and you will learn what

C. A. Richards' Abbott Bitters

ARE GOOD FOR

They have been made and sold 40 years—8 years by the present proprietor, and sold this great truth—that they have facts in his possession, showing that they *have cured and helped thousands, yea thousands of cases of*

Nervous Debility and Derangement of the Digestive Functions, Depression of Mind and Spirits, Oppression after Eating, Acid Stomach, Sick Headache, Costiveness, Jaundice, Piles, Heart burn, Flatulency, Female Obstructions, Dizziness, Sickness at the Stomach, Want of Appetite, Pain in the Side, and

Torpor of the Liver and Bowels.

Reader! you are appealed to earnestly. Don't say "if I only could believe this to be true. I have some of the above complaints, and I would take the medicine at once if I could only have confidence." IT IS TRUE—it is an honest truth, if ever there was one spoken. Come then, if your mind is irritable, discontented, and gloomy—if you have severe Colic Pains after eating your food—if your body begins to waste, your strength to fail you—if your countenance is haggard and sallow aspect—if you have a difficulty in lying on your left side—if your skin is dry and shriveled—if you have an appetite weak and variable, and perhaps entirely destroyed—if your whole system is languid, especially during the process of digestion—if you have a constant uneasy feeling in the stomach—why, you have only a fit of INDIGESTION! and these great Bitters are made to cure Indigestion, and they will do it, too, with all its attendant ills; and while at first it gently stimulates the Stomach, cleansing and removing these troublesome agents,

IT ACTS UPON THE SKIN,

Removing Moulds or VITIATED HUMORS, beautifying the face, kindling life and energy in your entire frame; this Reader, will the world *no longer look dark and gloomy, no longer* will your dearest hopes be banished and thrust aside, but with

Health and Strength

You will go forth into the world, to say with thousands of others, *C. A. Richards' Abbott Bitters* have done wonders for me.

GREAT
American and Foreign Office,
—FOR—
Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,
No. 76 State Street, opposite Kilby St.,
BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, late Agent of the U. S. Patent Office under the Act of 1837, determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on application prepared and conducted by him, THIRTY DOLLARS (instead of *twenty, to be paid back by others,*) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inquirer has advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove this; none is MORE SUCCESSFUL AT THE PATENT OFFICE than this, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. There, besides his extensive library of legal and mechanical works, are a full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar*. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in the best form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"Washington, D. C., 1855.—During the time I have held the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the ruling of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

Commissioner of Patents.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY
REV. WALTER CLARK,
Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of this Universal Cough Mixture have been sold in the State of Maine alone, and everywhere it has extorted praise for relieving and curing diseases of the Chest and Lungs. It gratefully acknowledges, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration and by removing the exciting cause of the cough, it frequently enables the sufferer to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

☞ Sold in trial bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

FEBRUARY 11th, 1853.

To Rev. Walter Clark. Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham, had the desired effect wonderfully. She had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev. Jesse Boyd, Lewiston Falls, Me.

CLARKSVILLE, Feb. 1, 1853.

Sir—Enclosed find one bottle of the Universal Cough Mixture which you left with me, to sold—and I have several applications for more. As far as heard from, all have been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with pleurisy of the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle and before he had taken one third of it, was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

From Mr. Fletcher Chick, agent, for North Dixmont, Maine.

DIXMONT, Me., Feb. 1, 1853.

Dear Sir—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing, and others who have been doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs. Hubbard, Thorndike, Me.

FEBRUARY 1, 1853.

To Rev. Walter Clark. Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief; happily your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.

LET US REASON TOGETHER

HOLLOWAY'S PILLS
WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

The British Periodicals.
PREMIUMS
TO NEW SUBSCRIBERS

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (Conservative)
2. THE EDINBURG REVIEW, (Whig)
3. THE NORTH BRITISH REVIEW (Free Church)
4. THE WESTMINSTER REVIEW (Liberal)
5. BLACKWOOD'S EDINBURG MAGAZINE (Tory)

THE great and important events—Religious, Political, Military—now agitating the nations of the Old World, give to these publications, an interest and value they never before possessed. They occupy a neutral ground between the hastily written news sheets, crude speculations, and flying rumors of the newspaper and the ponderous Tomes of the historian, a medium long sought for by intelligent readers, and which long after its events shall have passed away. The progress of the War in the East occupies a large space in these pages. Every movement, instructive, whether of friend or foe, and all else of importance in the Baltic in Blackwood's Magazine, finds its place in the most popular contributions, give a more intelligible and reliable account of the movements of the belligerents than a close reader can be hoped.

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical—but politics form only one feature of their character. As Organs of the most profound writers in Science, Literature, Morality and Religion, they stand as they ever have stood, unrivalled in the world of letters, being contributors and responsible to the scholar and the professional man, while to the intelligent reader of every class they form a more correct and satisfactory record of the current literature of the day, than about the works, than can be possibly obtained from any other source.
